Use this rapid-check studio protocol during every 120-minute daily session to ensure your drawings satisfy all four IIT Bombay grading dimensions across Q.1 through Q.5:

Question Slot	Strict 24-Minute Pacing Split	Mandatory Visual Deliverables	Common Deductions to Avoid
Q.1 Sketching (20m)	0–3m: Thumbnail & Horizon 3–18m: Line	Complete scene from exact assigned POV; clear foreground, midground, and background separation; expressive human/animal posture; cast shadows.	Drawing eye-level view when low/high POV was asked; floating feet; uniform line weight; using colour pencils when restricted to black/HB.

Question Slot	Strict 24-Minute Pacing Split	Mandatory Visual Deliverables	Common Deductions to Avoid
	Construction 18–24m: Shading & Depth		
Q.2 Creativity (20m)	0–4m: Divergent Ideation 4–22m: 4 Frames (4.5m/frame) 22–24m: Titles & Sequence	All 4/5 frames completed within boundaries; unmodified stimulus shapes/symbols integrated naturally; numbered sequence; witty titles.	Modifying or hiding the given stimulus shape; leaving frames unnumbered; literal/cliché interpretations; drawing outside box borders.
Q.3 Visual Sensitivity (20m)	0–4m: Visual Grammar Rules 4–22m: 4 Icons/Glyphs 22–24m: Solid Black Fill	Four cohesive icons or extrapolated letterforms sharing identical stroke width, corner radii, and abstraction level; high-contrast black & white.	Writing text/letters inside icon squares; mixing 3D perspective with flat 2D icons; inconsistent line thickness across the 4 squares.
Q.4 Form Sensitivity (20m)	0–5m: 3 Form Thumbnails 5–20m: Hero 3D Perspective 20–24m: Specular Shading	3D perspective product render clearly retaining the base form DNA; realistic buttons, handles, vents, seams, and material textures.	Literal copy of the base form without functional adaptation; flat 2D elevation instead of 3D perspective; missing ergonomic grip details.
Q.5 Problem ID (20m)	0–8m: 4–10 Problem Statements 8–24m: 2–5 Visual Callouts	Specific, actionable HMW/stakeholder problem statements; clear annotated problem/solution sketches with leader arrows and titles.	Listing generic complaints ("too crowded", "expensive") instead of design problems; providing solutions when asked only for problems (or vice versa).
